

MONITORING FISH HEALTH IN THE LOWER ATHABASCA REGION

Local anglers play an important role in monitoring fish health in the Athabasca region.

FISH TAGGING PROGRAM

If you catch a fish from the lower Athabasca region that has been tagged, please call Alberta Sustainable Resource Development at 780.743.7200 and provide the following information:

- › Tag number;
- › Tag colour;
- › Type of fish; and
- › Length and weight (if possible).

RAMP
Regional Aquatics
Monitoring Program

For more information:
www.ramp-alberta.org

FISH HEALTH PROGRAM

If you catch a fish from the lower Athabasca region that looks unusual or unhealthy, please call RAMP at 780.742.5147 and provide the following information:

- › Where you caught the fish;
- › Type of fish; and
- › Type of abnormality.

Photos of the fish will also be useful.

If the fishing regulations allow, please keep the fish and submit for analysis (free of charge) by contacting the Canadian Cooperative Wildlife Health Centre (www.ccwhc.ca) at **1.888.966.5815** or RAMP at **780.742.5147**. Please note that if a fish is kept for analysis, it is still considered part of your daily catch limit.
